Layout: Stacked and partitioned

Top view - planning geometry

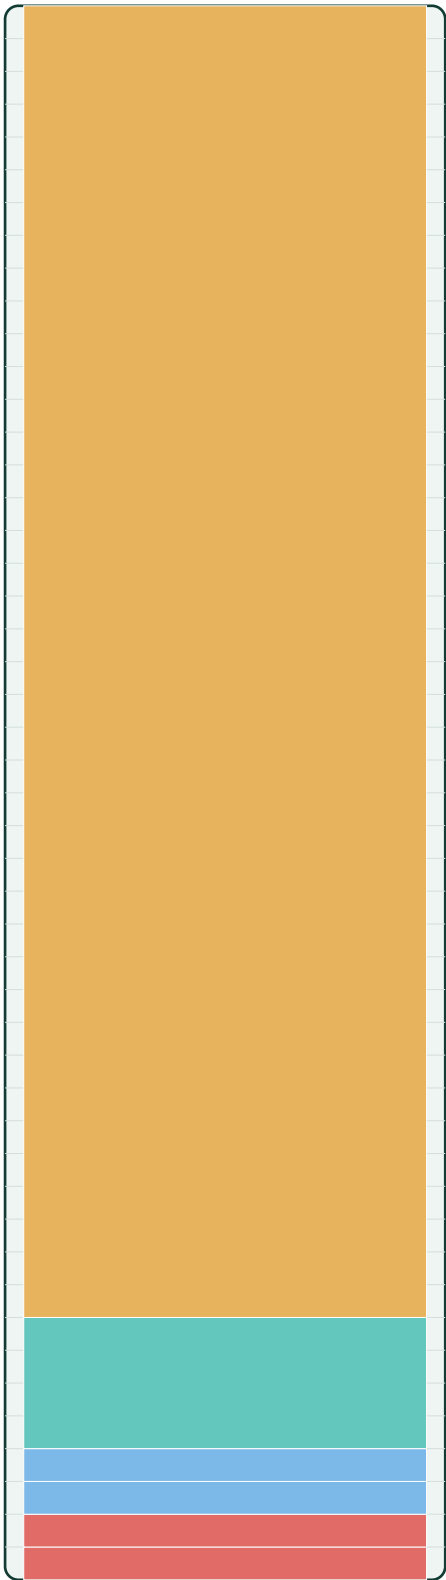

Assumptions and review limitations

- 48U, 600 mm x 1200 mm planning rack envelope used until OEM dimensions are approved.
 - Aisle and row geometry is a planning layout and requires architectural coordination.
 - Stated rack count and rack kW differ from target IT MW by more than 10%.
- This model is a planning artifact. It does not constitute a coordinated construction model, OEM approval, structural verification, or issued-for-construction rack elevation.

Representative rack elevation

Front elevation of the rack with the greatest number of mapped records. Colors identify equipment classes; labels preserve source status.
